# FC77 QUICK START GUIDE

unitech

STEP 1: CONNECTING THE INTERFACE CABLE

1. Turn the FC77 over so the bottom of the scanner is facing you.

2. Identify the Interface Port and Cable Track as illustrated in the diagram to the right.

Interface Port

Cable Track

3. Plug the scanner cable into the Interface Port on the bottom of the FC77. An audible "click" sound indicates the cable has been plugged in correctly and the connector lock is engaged.

4. Guide the cable through the Cable Track to ensure the FC77 rests flush on a flat surface.
STEP 2: CONNECT TO A HOST

Plug the scanner cable into a USB port of a host computer.

*Your host computer may take a moment to recognize the FC77 scanner.

STEP 3: TEST AND FINISH

Open a word processing program such as Microsoft Word or Notepad on your host. Now scan the following barcode:

If the word "Unitech" appears on the screen you have succesfully installed your scanner. Congratulations!

SETTINGS AND CONFIGURATION

The following section covers the most common configuration settings for your FC77 scanner.

For additional configuration options please visit unitechscanners.com/FC77 and select the "Download" tab.

You will find the User's Manual and a variety of other resources.

TAB MODE START

Tab Mode Start

You may wish to set your scanner to "Tab Mode." In this mode, data will tab over to the next column as you scan instead of jumping to the next line. Scan here to begin.

Scan this series of barcodes to switch to Enter Mode.

ENTER MODE FINISH

Enter Barcode

Scan here to enter your settings. You are now in Enter Mode.

FACTORY DEFAULT

Scan here to return your scanner to its original factory settings, a useful feature for troubleshooting purposes.

QUESTIONS / PROBLEMS?

The FC77 is a plug-and-play scanner. It does not require a driver and should be recognized as a generic HID device by your computer, similar to a standard keyboard. This allows you to scan into any field that you could normally type into.

Unitech's professional support team is available to quickly answer questions or technical-related issues. Should equipment issues occur, please contact a Unitech Support Engineer at (800) 861-8648 for more information.
